

CURRICULUM VITAE OF THABANG MAGAELE

PERSONAL DETAILS

Full Names: Thabang Olwethu

Surname: Magaele

Location: Mbombela, Mpumalanga, South Africa

Contact Number: +27 76 091 5274

Email: magaelethabang@gmail.com

Portfolio: thabangmagaele.vercel.app

LinkedIn: www.linkedin.com/in/thabang-magaele-6606bb2b2

PROFESSIONAL SUMMARY

An upcoming ICT graduate from the University of Mpumalanga and freelance developer, delivering 8+ live production websites for South African SMEs with 100% client retention. I'm a Full-stack developer skilled in Java, JavaScript, ReactJS, and SQL, with some cloud skills backed by an AWS Certified Cloud Practitioner credential, along with hands-on hardware and end-user support experience from freelance work. I have a proven track record of independently scoping, building, and deploying client solutions from concept to production, plus mentoring peers in Java programming fundamentals.

SKILLS

Technical Skills

- Web Development: HTML, CSS, JavaScript, ReactJS
- Mobile Development: Android Studio with Java
- Backend & Databases: Java, MySQL, SQLite, Firebase
- Cloud Computing: AWS Certified
- Version Control: Git, GitHub
- Hosting & Deployment: cPanel, Vercel, and paid hosting platforms
- Hardware Support: PC assembly, component replacement, hardware upgrades, and structured cabling
- Operating Systems & End-User Support: Windows, macOS, and peripheral troubleshooting with printers and scanners

Soft Skills

- Dependability
- Teamwork and Collaboration
- Problem Solving
- Time Management
- Client Relationship Management

PROFESSIONAL EXPERIENCE

Company: Nexus Solution

Occupation: Intern SEO Analyst

Period: June 2026 – Present

Duties

- Assisting senior SEO analysts with keyword research and competitor analysis to inform on-page and content optimization strategies
- Supporting technical SEO audits, including site speed, indexing, and broken-link checks, and helping implement recommended fixes
- Monitoring website performance using Google Analytics and Google Search Console, and helping compile reporting on organic traffic and rankings
- Assisting with the optimization of on-page elements such as meta titles, descriptions, and headings under the guidance of senior team members
- Supporting link-building and outreach efforts, including backlink tracking and prospect research, alongside experienced professionals

Company: Freelance

Occupation: Full-Stack Developer **Period:**

May 2025 – Present

Duties

- Designing, developing, and maintaining production websites for South African SME clients
- Managing client relationships, project scoping, and technical support
- Deploying and maintaining websites via Vercel and cPanel with DNS configuration
- Maintaining client retention across 8+ live production websites
- Integrating third-party APIs including WhatsApp, Gmail, and Cloudinary for client solutions

PROJECTS

Name: BudgetBuddy

Description: Android budgeting app for NSFAS/Bursary funded students **Period:**

April 2026 – June 2026

Tech Stack: Java, Android Studio, Room Database using SQLite

GitHub: github.com/Thabang-Magaele/BudgetBuddy-android-app

- Designed and developed a native Android personal finance application using Java and the Room persistence library for local data storage
- Built features for tracking income, expenses, and budget categories with an intuitive, user-friendly interface
- Published the project to GitHub as part of my personal development portfolio
